## EXPERIENCE

**Web Frontend Developer at [Wow Labz](#) (Apr 2021 - present)**

Worked on a large project from ground zero to completion comprised of handling large amounts of data and logic building on frontend side. Built some single page applications with 4-5 screens and some landing pages. Built a web admin app using a UI template. Built 2 apps from ground zero to completion with Polkadot based blockchain integrations where first was a video streaming web app and other was creator economy web app and also worked on another app i.e. a marketplace implementing new features which also used Polkadot based blockchain integrations. Then worked on some projects based on NextJS implementing new features and design changes.

Before joining the Wow Labz, I have been working on several projects to enhance my web development skills and also to showcase them in my portfolio.
